

## SAVE THE DATE!

### 15th International Conference in MDT - Ottawa 2024 8 - 11 August 2024

#### Conference Overview

The 15th International Conference in Mechanical Diagnosis and Therapy provides a stimulating and interactive learning event that will demonstrate, debate and celebrate both the art and science of contemporary musculoskeletal care.

The issues around the burden of musculoskeletal disability will be critically examined in a format encouraging healthy discussion and dialogue in both plenary sessions and interactive parallel sessions/workshops to optimize the role of Mechanical Diagnosis and Therapy in contemporary and multi-disciplinary neuromusculoskeletal patients assessment and management.

Located in the heart of the magnificent capital city of Canada, the Westin Ottawa will be our congenial host venue supporting a combination of plenary sessions, workshops and social functions with some of the world's leading clinicians, educators and researchers.

Plan to spend a little part of your summer in Canada's beautiful capital. It's the ideal city and season to enjoy your downtime with colleagues and friends!
